This document is a summary of the source article, prepared for reference. It does not reproduce the article's original text; for full details, quotes, or the complete step-by-step guide, please visit the original link above.

Overview

The article rounds up currently active Pokémon GO promo codes as of July 12, 2026, timed around the game's 10th Anniversary celebrations and GO Fest 2026 events. It notes that Niantic has moved redemption entirely to an external web portal, removing in-app code entry, and walks through how to redeem codes and avoid losing items due to full inventory.

Active Promo Codes

Promo Code	Reward	Status / Expiration	Event Context
62EGDH625ABMP	100 Link Charges, 15 Poké Balls	Highly Time-Sensitive	GO Fest 2026 Global RSVP Milestone
FBLYVRG5QJKE6	100 Link Charges, 15 Poké Balls	Highly Time-Sensitive	GO Fest 2026 Live Check-In Milestone
MLBxPOKEMONGO2026	MLB Avatar T-Shirt	Sept 30, 2026	MLB Partnership
FENDIxFRGMTxPOKEMON	FENDI x FRGMT Avatar Hoodie	Glitched (Active)	Legacy Crossover Extension

Key Points

- The two GO Fest milestone codes together grant a combined 200 Link Charges, a new currency needed to start Encounter Links for high-tier raid bosses like Mega Mewtwo.
- Before redeeming, players should spend down existing Link Charges so the storage cap doesn't cause the redemption to fail or waste the code.
- The Fendi crossover code was originally meant to expire in January 2025 but reportedly still works due to a database oversight; the article suggests treating it as temporary since it could be patched at any time.
- All code redemption now happens through an external Niantic web portal rather than in-app, due to the removal of native code-entry fields.

Redemption Steps (Condensed)

1. Go to the official Niantic Reward Redemption Portal in a web browser.
2. Log in with the same external account linked to your game profile (Google, Apple, Facebook, or Pokémon Trainer Club).

3. If login redirects fail, link an alternate login method in-game (Settings → Account) and use that instead.
4. Copy-paste codes rather than typing them, to avoid autocorrect/capitalization errors.
5. After a successful confirmation on the web page, open the app to see the items logged in your Journal.

Codes Confirmed Expired

GOFESTMAX, POKEBALL50, MLBxPOKEMONGO (2025 version), GOTOURKALOS / GOTOURUNOVA, POKEMONCONCIERGE.

Where to Find Future Codes

The article recommends following Niantic's official X (Twitter) account for flash-drop codes during live events, checking the Pokémon GO YouTube Community tab for brand partnership announcements, and using community-verification sites such as Leek Duck or the r/TheSilphRoad research community for crowd-checked code listings.

Disclaimer (per original article): Codes are managed at Niantic's discretion and can be altered or deactivated without notice. This summary reflects the state of the game as of July 12, 2026, and is not affiliated with Niantic, The Pokémon Company, or Nintendo.
